

April 28, 2003

To whom it may concern:

Melton Management Inc. D/B/A McDonald's Restaurants have numerous locations throughout South Florida.

Over the past six (6) years, we have had the honor of working with the Hyatt Construction Group in several different types of construction from totally building new locations, indoor playgrounds, along with re-imaging old locations.

Mr. Hyatt has only the best construction personal on his staff, with years of quality experience, along with an office staff that keep the projects on time and within budget.

We could write pages on how Melton Management feels about the Hyatt organization and all of it's staff, but, instead we would like to invite you to tour any of our locations with Mr. Hyatt that they have built for us and see for yourself what quality is all about.

I have been the Construction Supervisor and Coordinator for Melton Management for six (6) years and the person who has had the pleasure working with these fine folks daily.

Please feel free to contact me at 561-722-2069, should you have any questions.

Sincerely,

A handwritten signature in cursive script that reads "Larry E. Dutro Sr.".

Larry E. Dutro
Construction Supervisor
Melton Management, Inc.
